[How to teach man to man](#)

The rules shall be those published by the International Basketball Federation (FIBA) and adopted by Canada Basketball and the Ontario Basketball Association.

Additionally;

### a) Protests

It is the policy of the National Basketball Committee of the United States and Canada that it does not recognise protests.

### b) Game Modifications

U-10 (grade 4 only):

- i. play cross court on baskets that are 9 feet high for U10 A games and 8 feet high for U10 games
- ii. Play 5 players at a time. During season games or mini meets, coaches may agree to play 4 players if both team rosters are 8 or lower. Season end tournaments will be 5 vs. 5.
- iii. For regular season games and mini meets, Athletic Directors will set schedules that will have a play time minimum of 45 minutes (1 or 2 games is suggested) and a play time maximum of 90 minutes (3 or 4 games is suggested). Shifts will be set to maximize player involvement - 4 or 5 minute shifts are suggested.
- iv. For season end tournaments, round robin format is preferred. A maximum of 2.5 hours of game time is recommended. Shifts will be set to maximize player involvement.
- v. shifts are running time except for injury. During the final shift before the half and the final shift of the game, the last minute will be stopped time.

- vi. Each player on the bench is numbered from 1 - ?? They will enter each shift in a numbered sequence throughout the game including the last shift. If a player is injured the next numbered player will take their sport. Rosters will be shared with the opposing coach and time keeper.
- vi. during the season referees are to be supplied by the host school and could be senior students preferably basketball players
- vii. no pressing defences allowed  
drop back to half court to pick up check
- viii. no double teaming allowed
- ix. a player may rotate to help on defence if a teammate has lost his or her check
- x. courts must have a piece of tape or paint marking a spot seven feet inside the regulation foul line. This will be the u10 foul line.
- xi. if a player is fouled in the act of shooting or the team has 7 or more fouls in the half regardless of his or her position on the floor, he or she gets a free shot from the foul line. If there is a shooting foul that scores, the points count and the player will get a foul shot worth one point. The shot can be awarded if the time has expired. The defending team gets possession of the ball under their net following the shot whether it scores or not as with regular U10 foul shots.  
All foul shots will be 1 shot worth 2 points with the exception of rule xi – a.
- xii. all foul shots will be 1 shot worth 2 points
- xiii. Each coach will record the first 7(seven) fouls (this is any foul -shooting or not) for both teams in the first and second half of the game. Coaches are asked to communicate with each other on the number recorded for each team and notify the referee once a team has committed 7 fouls. Once a team has committed 7 fouls, the other team will take one foul shot from the designated u10 foul line, as outlined above. This will happen for all fouls for the remainder of the half. Following the shot, the other team will get possession of the ball under their net. The referee will stop the time during the shot. No names need to be recorded, just the team fouls.
- xiv. jump balls will be tracked by the referee
- xv. shifts will start with the team receiving next possession in possession of the ball.
- xvi. Over and back violation – No over and back from 1<sup>st</sup> to 3<sup>rd</sup> quarters. In the last quarter and in overtime, if there is an over and back situation, the ball can be defended in the back court.
- xvii. if the referee counts 10 seconds before the ball crosses half-court, then there is a change of possession. The team may cross back, but rule “xvii” remains in effect so a player is not called for over and back.
- xviii. *TWO*, 1 minute timeout per half which a coach may call during a stop in play or on his/her team’s possession. The clock will stop during the time-out.
- xix. For U10, *there is NO double-teaming permitted.*

Strategies to help **u10 coaches** in lopsided games

Running up the score is not acceptable. When the point spread reaches 20 points, coaches must make a strategy change.

- pass a minimum of 5x without calling out the passes
- discourage fast breaks and lay-ups
- In the event of an unbalanced game, coaches are encouraged to discuss strategies at the end of the quarter.
- Only take long range shots.
- Only take one outside shot then don't rebound and fall back
- Ball must touch all teammates before taking the outside shot
- Do everything with only your weak hand (dribbling, passing & shooting)
- No dribbling anymore – passing only
- Drop back into a zone, lay off the man to man, don't pick players at half court – back up to the mid-key towards the block
- Hands down on defense, move your feet to get body in the way, beat player to the spot, do not reach out and steal the ball, just deny penetration
- Can only take shots with either a give and go or a pick and roll or a drive and dish
- Must move the ball by the count of 3 in your head.
- Guards swap positions with forwards and vice versa

#### U-11 and U-12

- i. U12 foul line moved 2 feet (61 cm) closer to the basket.
- ii. U11 foul line moved 3 feet (91.45) closer to the basket  
The regulation sized three-second area will be in effect. For U-11, U-12 and U-13.
- iii. A full court man-to-man press is allowed in the second half only. Drop back defence will apply in the first half. Full court man to man press must be terminated when a team leads by 15 points or more.
- iv. If a losing team gains player control (holding or dribbling) in its back court when losing by 15 points or more, the winning team must immediately retreat to its back court. The losing team must be allowed to advance the ball to the front-court unimpeded.
- v. Use equal playing rules including a grid system for tracking playing time. Please refer to Pages 33 – 36 in the OBA Guidelines.
- vi. For U11 and U12, *there is NO double-teaming permitted.*

#### U13 and U14 DEFENSE

At the U13 and U14 level, double-teaming the ball will be permitted with the following rules:

- i. In the front court only
- ii. No double teaming the inbounder
- iii. Double teaming may only occur once the player has possession of the ball
- iv. All other person to person rules listed apply ( ie. No zone)
- v. There is no double teaming once a team has a 15 point lead

## SENIOR & JUNIOR

## c) Person-to-Person Rules

CISAA / Ontario Basketball requires its member schools and coaches to have as one of their most important priorities, the development of long-term basketball skills. For this reason:

- i. CISAA / Ontario Basketball believes that teaching person-to-person defensive skills is critical to children's overall skill development, enjoyment and success in the game of basketball.
- ii. CISAA member schools and coaches are required, therefore, to teach their players the necessary skills needed to use only person-to-person defense during Under 14 games and all age levels below.
- iii. The spirit of the rule is to not encourage any athlete to stand in the key playing a one-man zone and to teach the athletes to help and recover to their offensive check.

### Definition of Person-to-Person

- i. Zone defenses are illegal and not allowed.

When the ball is inside the boundaries of the half court, each defensive player must guard an offensive player and make all moves associated with the offensive players positioning and movement including the rules further set out below.

- ii. Defenders are entitled to provide help but only where there is separation. Double teams are not permitted! In no situation should a double team occur beyond a help situation.
- iii. Where help is provided, the help defender or the beaten defender must recover once one of them establishes a legal guarding position.
- iv. The only time defenders can defend from within the three-second area is:
  - When they are guarding an offensive player who is standing in the three-second area; OR
  - The defender is within one arm's length of his or her check who

- does not have the ball; OR
- They are guarding the ball with respect to their check; OR
- There has been separation and they are providing help.

#### Consequences for Person-to-Person Rule Infractions

- i. First Infraction:  
The referee will provide one warning to the offending team.  
The scorer must then notate the warning on the game sheet.
- ii. Subsequent infraction(s):  
The site convener will instruct the referee to assess a team technical foul against the defensive team for each and every infraction.  
Two free throws and possession of the ball at half court will be awarded to the offensive team.

#### Procedures to the Consequences to Person-to-Person Rule Infractions

- i. Any player of the offensive team listed on the game sheet (on the court) may shoot one or both free throws.
- ii. The team's coach whose team receives three or more team technicals as a result of person- to-person infractions in any one game, will be reported to the convenor and to the local referee assignor.

#### Person-to-Person Recommendations

- i. Coaches must take a more active role in reminding their young players throughout the game to play according to the rules and guidelines as set out in this manual.

Person-to-Person rules will be considered off when teams use extreme offensive formations to gain an advantage and create an isolation opportunity for one of our athletes. Isolations are not encouraged by Ontario Basketball. Athletes at this age should play using the offensive concepts identified in the Introduction to Competition coaching course.

#### Isolation Plays

If a team uses extreme offensive formations to gain an advantage by creating an isolation opportunity for one of their players, the referee will provide one warning to the offending team (the scorer must note the warning on the game sheet). The referee will assess a team technical foul against the offensive team for each and every infraction after the warning. Two free throws and possession of the ball at half court will be awarded to the defending team.

- d) Explanation of Terms

**Legal Guarding Position:** The position of a defensive player who is guarding the offensive player with the ball. The defender must be attempting to stay within

an arm's length of his or her check and separation as defined below has not occurred.

**Gapping:** Where a defensive player is within one stride away from what would be legal guarding position of his or her check if that check passed the ball.

**Help Situation:** Where there is separation and a defender (the Help Defender) leaves his or her check to defend the offensive player who has caused the separation to occur.

**Help Position:** As per the Ontario Basketball young player rule modification, a defensive position which is not guarding the ball and is outside the three-second area. In this position the defensive player should have no feet inside the three-second area, unless the person who is guarding the ball has clearly beaten his or her opponent.

**Separation:** Occurs when a defender (aka "Beaten Defender") has been clearly beaten by his or her check and the offensive player has a visible advantage (shoulder or feet past the defenders back foot) over the defender.

**Quarter Court:** The area on the floor closest to the basket below an imaginary line drawn perpendicular to the sideline through the top of the three-point arc.

**Recover:** Where a help defender assists and (either the help defender or the beaten defender) establishes legal guarding position, then either the beaten defender must switch to cover the check left open by the help defender or the help defender must return to his or her original check. At no point should two defenders be left guarding one offensive player.

**Weak side:** The side of the quarter court that is opposite the side where the ball is situated.

**Zone Defence:** When any player defends an area on the court as opposed to guarding an offensive player.

e) Defensive Positions when the ball is in the quarter court:

#### **Defender Guarding the Ball**

The defensive player guarding the ball must defend the player with no gapping permitted.

The defender must be attempting to stay one arm's length away from the offensive player and may not slack off by gapping.

#### **Defender is One Pass Away from the Ball**

The defensive player must be committed to an offensive player. The defender is permitted to gap from his or her check, however the defensive player is not permitted to provide help unless there is separation.

### **Defender is Two Passes Away or on Weak side**

Defenders who, on the weak side or at least two passes away, are not restrained as to the distance they can play from their check and may assume a help position provided that the defender stays on the weak side. They are reminded that this means that the defender must remain outside the key area with no feet in the key area and be in help position. The defender is not permitted to provide help unless there is separation.

### **Defending Players Above the Top of the Three-Point Line**

When defending a check who does not have the ball and is above the line which defines the quarter court, the defender can play below the quarter court line but must stay above a line extending across the free throw line to the sideline. Defenders must remain on the same side of the court as his or her check.

- f) Intentional Double Teaming  
(see special rules for U14 above)
  - i. Double teaming and trapped is not permitted the entire length of the floor.
  - ii. Accidental double teams (i.e. when an offensive player dribbles towards a teammate and their defender is in the same part of floor) is not a violation unless the defensive players do not immediately retreat back to their original checks. The intent of this rule is to eliminate intentional double teaming, so please inform your parents of this rule so a positive playing environment is maintained at all times.
  
- g) Drop Back Rule
  - i. Pressing is permitted except when one team leads by 15 points or more, its players must 'drop back' behind the ten-second line.
  - ii. Once the losing team secures player control of the ball (dribbling or holding the ball) in its backcourt the winning team must retreat immediately into their backcourt, behind the ten-second line.
  - iii. The losing team shall be allowed to dribble the ball unimpeded across the ten-second line and establish frontcourt status.
  - iv. Drop Back Rule Penalty  
Violation of the rule stated above will result in the ball being awarded out-of-bounds to the losing team at the front court sideline at the extended free throw line.
  
- h) Defending the Inbounding Player: Front Court
  - i. When the ball is baseline out of bounds/sideline out of bounds in the front court a player must defend the inbounder. There are no double teams permitted and players are not allowed to cover an area on the floor so the defender must be approximately an arm's length away.

- ii. If the offence uses a formation that is clearly designed to draw all potential help defenders from the basket area then the no zone rules do not apply. Once the ball is inbounded and the offensive players enter the quarter court each defensive player must guard their offensive check.

i) Coaches and Ref Conference

At the beginning of each game, both coaches must discuss the man-to-man regulations and expectations.

Concerns regarding the use of zone defences should be directed to the convenor who will contact the appropriate Athletic Director.
